

The logo for ADDWITH features a blue cross symbol to the left of the word "ADDWITH" in a bold, yellow, sans-serif font. The background is a dark grey wall with a diagonal shadow line.

# ADDWITH

A white line-art illustration of two pendant lamps hanging from thin wires. The lamps have a trapezoidal shape with a small semi-circle at the bottom representing the light fixture.

INTERIOR  
DESIGN

A vibrant red, tufted armchair with a curved back and wooden legs. The chair is positioned in the lower right quadrant of the image, set against a dark grey wall with a diagonal shadow line.

# Collaborative Workspaces:

# Why Choose Us?

## 1. Innovative Designs :

## 2. High-Quality Materials:

### Particle Board

Particle board is an engineered wood-type material made from wood chips, sawdust, and other wood waste glued together with resin.

- Advantages:**
- Affordable
  - Lightweight
  - Easy to clean, cut, and paint
  - Soundproof

**Application:**

**Flooring**

**Countertop**

**Closet**

**Wall Panel**

### Blockboard

Blockboard is an engineered wood made from layers of solid wood glued together to form panels.

- Advantages:**
- Strong and stable
  - Lightweight
  - Resilient
  - Dense

**Application:**

**Table**

**Book Shelf**

**Closet**

**Bed Frame**

### Multiplex/Plywood

Plywood consists of several layers of thin wood glued together under great pressure.

- Advantages:**
- Relatively Flexible
  - Durable
  - Water-resistant
  - Solid & Dense

**Application:**

**Flooring**

**Door Panel**

**Closet**

**Wall Panel**

### Medium-Density Fiberboard

MDF is made from recycled pieces of solid wood - fibers and resins that are glued together

- Advantages:**
- Dense and strong
  - Relatively flexible
  - Soundproof

**Application:**

**Table**

**Book Shelf**

**Cabinetry**

**Closet**

### Solid Wood

Solid wood has the characteristics of being sturdy and strong, making it a great choice for furniture that is meant to last for many years.

- Advantages:**
- Strong and sturdy
  - Textured
  - Resilient

**Application:**

**Table**

**Chair**

**Cabinetry**

**Closet**

## 3. Customization :
